Clinical Pathway Decision Outcomes

Total Number of Patients with Decision Outcomes made within 3 weeks of Acceptance Date

Findings:

1. The Long-term outcome measure for the ORL clinical pathway is having the decision outcomes made within 3 weeks from the acceptance date, the result of this quarter is:

a) (79%) met the outcome which represent (11) patients out of 14, with a time duration average of 9 *Days*.

b) (21%) didn't meet the outcome which represent (3) patients out of 14, with a time duration average of 32 *Days*.

2. The clinical pathway utilization this quarter is **low 36%**.

Recommendations:

1. Medical Quality Director / Clinical Pathway Coordinator to share the report with the respective Health Care Provider.

2. Utilize the clinical pathway nurse champion as a resource for any clarifications.

3. To improve the utilization of the pathway up to **85%** and above.
