- 2. This quarter utilization is 100%.

# **Action plan:**

- 1. The report to be shared with the respective Healthcare Provider/ Medical Quality Director / Clinical Pathway Coordinator
- 2. Encourage the Healthcare Providers to utilize the clinical pathway nurse champion as a resource for any clarifications.
- 3. The initiation of EVD clinical pathway will be limited only to Neurosurgery physicians
- 4. The EVD life span is now exceeding 15 days by only one or two days with 93% removal within 15 days; and this was based on an agreed upon action plan post the spike that happenned in the 2Q 2020.

### **Recommendations:**

1. Physician / Nurse champions to emphasize on the importance of EVD removal within 15 days from insertion, if patient is Neurologically stable.
