

Strategic Priority: **SP3- Organizational Sustainability**

Project Name

Implementation of CareView in KFSH&RC

Site

Riyadh

Department

HITA - KACOL&D

Project Status

Completed

Project Start Date

02-22-2015

Project End Date

06-22-2017

Problem: Why the project was needed?

Manual entries require massive work to update white-board, which is essential for nurses, physicians and other allied healthcare providers, to allocate and identify patients' rooms efficiently.

Aims: What will the project achieve?

To increase the display of patient details and rooms entries through integration of real time with ICIS from the baseline to 100% by end of July 2018 and sustain it for 1 year.

Benefits/Impact: What is the improvement outcome?

(check all that apply)

- Contained or reduced costs
- Improved productivity
- Improved work process
- Improved cycle time
- Increased customer satisfaction
- Other (please explain)
Click or tap here to enter text.

Quality Domain: Which of the domains of healthcare quality does this project support?

(Select only one)

Effective

Measures: Performance metrics to be evaluated	Targets: Expected outcomes
Display of patient details and rooms in white-board	100%

Interventions: Overview of key steps/work completed

- Implement a CareView solution to facilitate updating patient's white-board efficiently on timely manner.
- Integrate CareView along with ICIS to reflect the updated information related to patient condition, admitting physician, primary nurse, hospitalizations dates, and length of stay.
- Design displayed view and Indicators.
- Validate the solution with the end User.
- Train the end user using train the trained methodology.
- Support after Go live 24/7.

Results: Insert relevant graphs and charts to illustrate improvement pre and post project
(insert relevant graphs, data, charts, etc.)

- Pre implementation display of manual white – board.**

- Post – implementation of CareView solution.**
