

2017 Performance Improvement Report STRATEGIC PRIORITY

3. Improve efficiency and decision-making

Project Name

Site		Department
Riyadh		Pharmaceutical Care
Project Status	Project Start Date	Project End Date
Completed	05-01-2017	12-31-2017
Problem: Why the project was needed?		Aims: What will the project achieve?
The preparation of intravenous dexamethasone bag in particular, is time consuming. In addition, most of these preparations are returned to pharmacy as expired medications on a daily-bases. This accounts for waste in cost and medications		To reduce the annual cost of pre-chemotherapy dexamethasone preparations by at least 80% before the end of 2017; and this is done by switching from IV to ora route.
Benefits/Impact: What is the improvement outcome? (check all that apply) ☑ Contained or reduced costs		Quality Domain: Which of the domains of healthcare quality does this project support? (Select only one)
 ☐ Improved productivity ☐ Improved work process ☐ Improved cycle time ☐ Increased customer satisfa ☐ Other (please explain) Click or tap here to enter to 		Efficient

Measures: Performance metrics to be evaluated	Targets: Expected outcomes
Dexamethasone cost	80% reduction from baseline

Interventions: Overview of key steps/work completed

- All pre-printed protocol for solid tumor are updated to reflect the actual change of switching from IV to oral.
- Oral dexamethasone was added in PYXIS
- Relevant departments were informed for the new practice

Results: Insert relevant graphs and charts to illustrate improvement pre and post project (insert relevant graphs, data, charts, etc.)
