Beliefs about COVID-19 Facts and Myths (3)

There is a vaccine for COVID-19 ❌
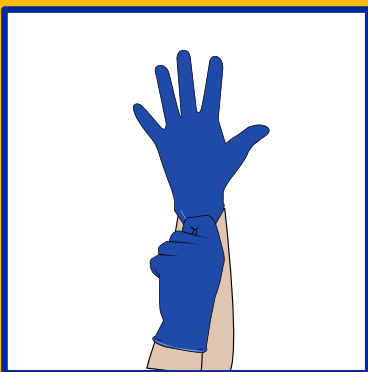

Until now, there is no available vaccine or treatment for COVID-19. ✅

Pneumococcal vaccine protects against COVID-19 virus ❌

This vaccine only protects against some types of bacteria that cause pulmonary infection. ✅

The public should wear gloves ❌

Wash hands regularly and don't wear gloves unless necessary. Gloves can give a false sense of security that may result in face touching with contaminated hands. ✅
