# Wrong Practices That Might Lead to the Spread of COVID-19 Virus

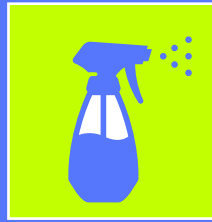

Leaving home unnecessarily

Ordering from unauthorized delivery services

Home gatherings for worshiping and entertainment and sleepovers

Not cleaning and sanitizing purchased items before bringing them into the house

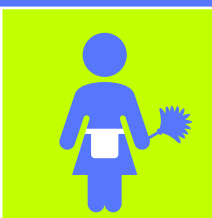

Making meals and sharing them with friends and neighbours

Inappropriate disposal of grocery and garbage bags

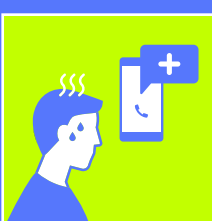

Allowing children to play with other children that don't share with them the same house

Sharing domestic workers with others

Negligence in following prevention measures (hand wash, cough & sneeze etiquette, social distancing)

Not complying with home quarantine or reporting to the Ministry of Health when developing symptoms
