## Tips to Prevent Getting Infected With “COVID-19” Virus While Being in Barbershops

Do not go when showing any disease symptoms

Go to barbershops that adhere to precautionary measures

Adhere to wearing cloth or medical face mask inside the shop

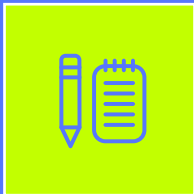

If possible bring personal shaving kit

Keep face mask on during services that do not require removing it such as hair cutting

Take children to their designated barbershops

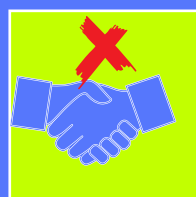

Pre-book an appointment and adhere to it

Do not bring others without pre-booking for them

Follow sneezing and coughing etiquette and social distancing rules

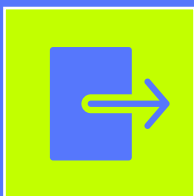

Avoid shaking hands or hugging or kissing

Properly wash or sanitize hands after touching surfaces and before touching eyes, nose and mouth

Use electronic payment instead of cash

Leave immediately after finishing to avoid gatherings and direct contact
