

SAFETY ALERT

Storage of Patient Specific Multi-Dose Medication

Isolation and Regular Patients

WITH IMMEDIATE EFFECT

- * No medication is allowed to be stored inside the patient's room at any time.
 - * All patient-specific multi-dose medication for isolated and regular patients must be stored in the patient-specific bin inside the Medication Room.
 - * For isolated patients: medication must be placed in a zip-lock plastic bag and wiped before taking it out of the patient's room to be stored back in the patient-specific bin inside the Medication Room.
- ◇ **The CIPP has been updated and under approval process in Navex.**

Recommendations:

Δ *Ensure Compliance to below CIPP*

**KING FAISAL SPECIALIST HOSPITAL
