King Faisal Specialist Hospital and Research Centre has developed SEHATY, a Patient Portal system for a convenient and secure 24 hour access to patients' health records information. The goal of Sehaty is to empower patients with an effective communication platform to improve patient satisfaction and engagement.

To create a new account & Start using Sehaty Services:

Visit Sehaty website at Sehaty.sa or download "Sehaty" application from the official smart devices stores **or** proceed to the nearest Hospital registration desk

How to get to SEHATY ?

Visit Sehaty website at Sehaty.sa or download Sehaty application on your Android or Apple devices or PC

Account registration

Click on 'Register'

Enter the following data to register for Sehaty:

- 1) Medical Record number at KFSH&RC
- 2) National ID/Iqama Number
- 3) Mobile number

- Click next
 - You will receive a numeric verification code on the mobile phone number registered in Sehaty.
 - Enter that verification code and then click 'next'
 - To set a password, follow these steps:
 - o It should have 8 characters
 - o It should contain letters and numbers
 - o It should have one of these characters #, \$, @, Or capital letters
- After completing these steps you can sign in with your national ID number or Iqama number as a user name and the password that you have set and then click on 'login'

- If you forgot your password, you need to reset it.
- Click on 'forgot your password ' on Sehaty webpage

- If you forgot your password, you need to reset it.
- Click on 'forgot your password ' on Sehaty webpage
- Enter the national ID number or iqama and click 'next'
- You will receive a numeric verification code on your mobile phone that you registered with.
- After this, you may reset your password.

SEHATY

You can access your personal medical health file and perform many of the services without the need to call or to be present at the hospital.

*Registration is now available via King Faisal Specialist Hospital and Research Centre website.

Electronic Services

A detailed explanation of benefiting from SEHATY electronic services

Health Profile

This feature gives you a summary of your medical information as recorded in your health record such as BMI, allergies and current medications.

The screenshot displays the patient portal interface for King Faisal Specialist Hospital & Research Centre. The header includes the hospital logo, name in Arabic and English, and navigation links for 'My Requests', 'Admin Portal', and 'Test Portal'. The user's MRN (920012312) and location (Riyadh) are shown. A warning message states: 'The information provided below is retrieved from KFSH&RC clinical systems. If you believe any data is incorrect, please notify your healthcare provider on the next visit.'

The 'Health Profile' section is active, showing a patient ID of '999999 - Test Six Test Six Test Six'. Below this, there are two tables:

PATIENT INFORMATION				
MRN	Patient Name	Blood Type	Eligibility	Balance
999999	Test Six Test Six Test Six	AB Positive	Eligible	SR 3,780.02

CURRENT ALLERGIES					
Substance	Category	Reaction	Severity	Updated	Source
Egg Allergy	Food	Nasal congestion	Mild	17/02/2016	Family

Calendar

The blue dots on the calendar indicate date and location of previous or upcoming appointments. For further information about your appointments, such as cancelling/rescheduling or receiving appointments slips via sms, email or printing, go to the 'Appointments ' tab in Sehaty.

Medical Conditions

View a list of medical conditions as diagnosed by your KFSH & RC clinician in your electronic health record. Here you can click on 'details' and print further information.

The screenshot shows the top navigation bar with the hospital logo, name in Arabic and English, and contact information. Below the navigation bar, there are three tabs: 'Sehaty', 'Admin Portal', and 'Test Portal'. The 'Sehaty' tab is active. On the left side, there is a vertical menu with icons for 'Health Profile', 'Calendar', 'Life Style', 'Appointments', 'Medical Conditions', 'Medications', 'Health Maintenance', and 'Immunization'. The 'Medical Conditions' option is highlighted. The main content area shows the title 'Medical Conditions' and the patient ID '999999 - Test Six Test Six Test Six'. Below this is a table with the following data:

DIAGNOSIS			
Date	Description	Type	Status
01 Dhu Al Hijja 1436 14 September 2015	Family history of diabetes mellitus	Diagnosis	Active
04 Rabia Al Thani 1435 04 February 2014	Pneumonia, unspecified	Diagnosis	Active
04 Rabia Al Awal 1435 05 January 2014	Brucellosis	Diagnosis	Inactive
28 Shawwal 1434 04 September 2013	CHF [Congestive heart failure]	Diagnosis	Resolved
12 Safar 1434	Asthma	Diagnosis	Active

Medications

This feature allows you to review all current (active) and past (inactive) medications as prescribed by King Faisal Specialist Hospital and Research Center clinicians.

Warning

- Very bad and sometimes deadly liver problems have happened with the use of acetaminophen. Some people needed a liver transplant. Liver problems happened most often in people taking more than 4,000 mg (milligrams) in a day. People were often taking more than one drug with acetaminophen in it. Talk with your doctor.

What is this drug used for?

- It is used to ease pain and fever.

What do I need to tell my doctor BEFORE I take this drug?

All products:

- If you have an allergy to acetaminophen or any other part of this drug.
- If you are allergic to any drugs like this one, any other drugs, foods, or other substances. Tell your doctor about the allergy and what signs you had, like rash; hives; itching; shortness of breath; wheezing; cough; swelling of face, lips, tongue, or throat; or any other signs.

Health Maintenance

This feature provides a list of recommended labs or procedures for your age and health status. Please inform your clinician if you are in proximity of a preventative or follow-up screening.

Sehaty Trouble Shooting: Questions & Answers

Q1: I have forgotten my password. How do I reset?

A: You can reset password visiting the KFSH & RC registration desk

OR

Online at Sehaty.sa **or** through Sehaty application

Click on 'forgot password 'on the Sehaty page

Enter the national ID number or iqama number and press next to reset password.

You will receive a numeric verification code on your mobile phone that you registered your Sehaty account with.

Enter that verification code and after this, you may reset your password and login to your account.

Q2: Unable to register online or system states to update information.

A: Please ensure that the KFSH & RC medical record number that you are entering is correct. Sehaty requires an updated National ID/Iqama number. To update your National ID or Iqama number information, please visit the registration desk at KFSH & RC hospital. After updating your information, you can register for a Sehaty account and login to access your health information.

Q3: How can I update my personal information in my Sehaty account?

A: If you need to update your National ID / Iqama Number, please visit the registration /reception desk at the main hospital.

For other updates such as address, email etc., login to your Sehaty account at

Sehaty.sa

Click on 'personal profile' tab.

You will see green or red colored fields in which you can update your information.

Ensure to click on 'Save' after making your changes.

The information is updated instantly in your records.

Sehaty Trouble Shooting: Questions & Answers

Q4: On the first page of Sehaty, why do I see I owe a balance?

A: There may be pending payments in your account. Please follow up in person at the hospital finance desk.

Q5: I login to Sehaty and I get a blank screen.

A: Please ensure that your personal information is correct and up-to-date, such as iqama and national ID number, medical record number and password etc. Logout of your Sehaty account, refresh your browser and log back in. If the problem still persists, please visit the registration desk at KFSHRC hospital.

Q6: I was registered in the previous E-services version. How do I update?

A: You may visit the registration desk at KFSHRC

OR

Go to Sehaty.sa

Download the most recent version of Sehaty

In order to provide you the best of service, we continuously update versions to keep Sehaty up-to-date as per user feedback.

Q7: I have trouble registering for Sehaty.

A: Ensure that you are entering the correct KFSHRC medical record number. Ensure that your iqama or national ID is up to date and not expired. If you still have problem with registration, kindly visit the registration desk at KFSHRC hospital, we will gladly assist you at the registration desk.

Q8: When I register for my son, the system asks me to come in person.

A: For security reasons, all dependents' under 18 cannot register online. One of the parents is required to visit the registration desk at the main hospital for registering their child.

Sehaty Trouble Shooting: Questions & Answers

Q9: When I try to view my reports, why do I get a blank screen?

A: Log out of Sehaty, refresh browser and log back in and click on the needed tab within Sehaty. If you still cannot view reports, the reports may not be available in the system yet. Most test results are automatically released into Sehaty with the exception of certain sensitive confidential tests. If you do not see a certain lab result, please note that some medical laboratory tests take a longer time to be processed as per lab standards. Please check with your clinician regarding time frame for test results.

Q10: How can I request for reports? Or how can I get all of my medical records?

Log in to your Sehaty account, click on the needed tabs, such as labs, Pathology or Documents and reports tabs and click the 'details' button. You may view or print these reports. For any further documentation, please visit the medical records department at KFSHRC.

Q11: I do not see a list of all my dependents?

A: If the dependents are over age 19, then they would need to give you access through their own account by clicking on personal profile tab and allowing you access to view information. Please follow the instructions to give access to view records.

If the dependents are under age 19, then for security reasons, he/she cannot register online. One of the parents is required to visit the registration desk at the main hospital for registering their child.

Sehaty Trouble Shooting

Q12: Request for medication list.

A: Log in to Sehaty account. Click on the Medication tab. You will see list of Active medications and Inactive medications. Click on the 'Options' button and then click 'Details'.

Q 13: I cannot see my relatives or parents medical information on Sehaty.

A: You need to have permission to view other patients' Sehaty information. Any KFSH & RC patient can grant access to another KFSH & RC patient.

You can also view your dependents' medical information and those who gave you access to their medical information or profiles. You can grant access to view your health information. Sign in to your Sehaty account and click on the 'personal profile' tab.

- Click on the green plus + sign in 'people I authorize to access my medical records'.
- It will open a window that you can add the user name of person to access your records. Enter their iqama number or national ID number, and then click on 'relation'.
- Click on their relation with you form the drop down list.
- To specify a time period for giving access to others, click on the calendar.
- For unlimited or permanent access, click on 'save' without making a selection from calendar.

Sehaty Trouble Shooting

Q14: I am unable to receive verification code for registration or for resetting password.

a: For first time registration: Ensure that the mobile number is correct.

b: For resetting password: Please note that for resetting password , the same number has to be given ,the one with which you primarily registered with. For further assistance please visit KFSHRC hospital registration desk.

Q15: My diagnosis is not showing.

A: Your Health Summary contains the record of health issues and diagnoses for which you are actively and continuously being treated at KFSH & RC, such as diabetes. This section will not include short-term diagnoses you are treated for, such as a common cold. If you have questions or concerns regarding the health issues listed, please discuss this at your next visit with your healthcare provider.
